* To play the melody, you must also play the chord changes, especially to and from the 5 and 6 chords. This is required because the pitch 7 is melodically different during the 5 chord than elsewhere in the song, and Bandojo automatically makes this change to the Melody Palette when the 5 chord is selected. Also, the 6 chord in Dorian is the wrong chord type, so Bandojo uses a more commonly used 6 chord for this song.
